Greener Ride - Laurent Vulliet, 2020

Greener is the grass on the other side
You wish you had somewhere to hide
Greener is the hope for a better ride
But you carry a home on your back

You think you’ve got problems away
Easy said but hard way to go
Anywhere you stay high and low
Your Self gets again in your way

Greener is the grass on the other side
You wish you had somewhere to hide
Greener is the hope for a better ride
But you carry a home on your back

You move and leave your stuff behind
Ready for a much better life
Without a doubt storms may arise
Cause your Self is still in your mind
Dreaming a new start

You're playing
Digging in your lost way below
Deep in your heart
It's ringing
Time is flying
And you know you should go go go

Greener is the grass on the other side
You wish you had somewhere to hide
Greener is the hope for a better ride
But you carry a home on your back
