And I Sing - Laurent Vulliet 2020

Quiet and cool, headphones on play
My world is high, chill and ok
New songs are neat, fake as can be
What can I do, where are the keys?

And I sing, and I sing, and I sing, and I sing
And I try, and I try, and I try, to forget
And I sing, and I sing, and I sing, and I sing
And I try, and I try, and I try, to forget

VR glasses, settings like real
Don’t see the pain, bye a new deal
Outside is war, inside is peace
What can I do, where are the keys?

And I sing, and I sing, and I sing, and I sing
And I try, and I try, and I try, to forget
And I sing, and I sing, and I sing, and I sing
And I try, and I try, and I try, to forget
