# Mother Nature – Patrick de Preux, 2020

Mother Nature in harmony with us
Is what we very would like to discuss
A piece of the cake for each species
Avoiding poking into neighbour’s dishes

But are we ready
To do what it takes
To quit with what we love so much and brake?
But are we ready
To do what it takes
To quit with what we love so much and brake?

Do we believe we can forever grow?
Live better without giving up the flow
Always a bit more, avoiding slowing
Eating the Earth with no sign of ending

But are we ready
To do what it takes
To quit with what we love so much and brake?
But are we ready
To do what it takes
To quit with what we love so much and brake?

Why don’t we try a brand new suit
That could really help us to reboot
Another way to run and blow
To clear a bit this big bordello

Mother nature will find solutions
Too bad for us, too bad for us
Mother nature will find solutions
Too bad for us, too bad for us
